Phnom Penh, July 14 2020

We are glad to have found a company that offers a fully integrated services for the retail sector including sale and leasing, research and design consultancy. Simon and his team at The Mall Company are flexible and easy to work with and have always been adaptable to our requirements. They listened to our needs and are responsive to project changes.

As a result our mall is better designed in relation to commercial factors and benefits from a more suited tenant mix and layout configuration. Their hands-on practical planning and design experience has made them a capable and trustworthy partner to bring our project vision to life.

The Mall Company understood what we are trying to accomplish and the concept of this project. Their knowledge of shopping centres and the retail sector as well as experience and expertise makes them our partner of choice for commercial areas of BOOYOUNG TOWN.

We thank The Mall Company for the work they have performed and look forward to working with them in the future.

Hwang Geumyeon
Director, Booyoung Khmer Co., Ltd.
